

### **4th Quarter Book Project/Shoebox Diorama**

By creating a diorama you will show important scenes and characters from the novel you chose for the 4th quarter. In a short presentation, you will briefly summarize the novel and tell the audience why you chose the scene and/or objects in the diorama for your project.

#### **Directions for making a diorama**

1. You will need a tissue or shoebox to create a diorama.
2. Colored paper can be used to create a background depending on the scene you choose. If you would like to draw the back ground you can use white paper.
3. Three dimensional objects can be used or made to place in the forefront of your diorama.
4. Include as many details as you can to make viewing the diorama interesting.

**Projects are due on Friday, May 25, 2012**
